The Honorable Chris Van Hollen  
Ranking Member  
House Committee on the Budget  
Longworth House Office Building  
Washington, D.C. 20515

Dear Chairman Enzi, Ranking Member Sanders, Chairman Price, and Ranking Member Van Hollen:

The undersigned 392 organizations, representing America's agriculture, nutrition, conservation, rural development, finance, forestry, energy, trade, labor, equipment manufactures and crop insurance sectors, strongly urge you to reject calls for additional cuts to programs within the jurisdiction of the Senate and House Agriculture Committees.

Just over one year ago, Congress passed, and the President signed into law, sweeping changes to our nation's food and farm policy that included significant deficit reduction. The 2014 Farm Bill required over three years of debate in both chambers of Congress and ultimately ended with the consolidation of over 100 programs and cuts to mandatory spending across many titles, including the elimination of the direct payment program. These cuts came in addition to those already in effect due to sequestration.

This bipartisan legislation was estimated to contribute \$23 billion to deficit reduction over 10 years when including sequestration. These difficult cuts were made across the farm safety net, conservation programs, and nutrition programs. The policy changes and reforms associated with these cuts are only now being fully implemented by the United States Department of Agriculture. As such, no additional cuts to these programs should be considered, at least until these policies have time to take place and be thoroughly evaluated.

We, therefore, oppose re-opening any title of the Farm Bill during the consideration of the 2016 Budget Resolution and strongly urge you to refrain from including reconciliation instructions for either the Senate Committee on Agriculture, Nutrition, and Forestry or for the House Committee on Agriculture. These Committees have already done the hard work of delivering bipartisan cuts, and the farm and food community has experienced substantial cuts as a contribution to the goal of deficit reduction.

Sincerely,
