Abstract

AM 1550 B2RF is a new Bollgard II® Roundup Ready® Flex variety planned for release in 2008. AM 1550 B2RF is a medium maturing variety with a medium plant height, and a semi-smooth leaf. AM 1550 B2RF has been tested across the cotton belt and has exhibited a very high yield potential and excellent fiber quality. It will be marketed in the northern Mississippi Delta region and North and South Carolina in 2008.
