

ENLIST DUO HERBICIDE FOR COTTON: STATUS AND TRAINING

Jonathan D. Siebert
Dow AgroSciences
Greenville, MS

Abstract

Dow AgroSciences launched the Enlist™ cotton trait in PhytoGen® cottonseed in 2016, giving growers access to the most innovative trait advancements in weed control technology for the cotton industry. For the 2017 season, PhytoGen will be accelerating sales of varieties with WideStrike® 3 *Insect Protection* and the Enlist cotton trait.

In November 2016, the United States Environmental Protection Agency (EPA) proposed to register Enlist Duo® herbicide for use on varieties with the Enlist trait. Dow AgroSciences expects that Enlist Duo herbicide will be registered for use on Enlist cotton for the 2017 growing season. Currently, Enlist Duo is not registered for use on Enlist cotton.

®™Enlist, Enlist Duo and WideStrike are trademarks of The Dow Chemical Company (“Dow”) or an affiliated company of Dow. ®PhytoGen is a trademark of PhytoGen Seed Company, LLC. PhytoGen Seed Company is a joint venture between Mycogen Corporation, an affiliate of Dow AgroSciences LLC, and the J.G. Boswell Company. The Enlist weed control system is owned and developed by Dow AgroSciences LLC. Enlist Duo herbicide is not yet registered for use on Enlist cotton. Enlist Duo is not registered for sale or use in all states. Contact your state pesticide regulatory agency to determine if a product is registered for sale or use in your state. Always read and follow label directions.
