

The Cotton Foundation

The Cotton Foundation was created in 1955 as a 501(c)3 organization to give U.S. cotton's agribusiness allies opportunities to support the U.S. cotton industry over and above the products and services these firms provide. Membership includes banks, seed companies, chemical and equipment manufacturers, publishers and others whose success depends at least in part on U.S. cotton and who share a common concern for a healthy U.S. cotton industry.

Agribusiness members' dues support general research and education projects. For 2020-21, Foundation member dues are supporting 11 general research and education projects at a \$210,000 funding level. These general projects along with special projects, which are supported by some Foundation members from grants over and above their dues, are enabling the Foundation to more effectively carry out its overall mission of strengthening U.S. cotton's position in the highly competitive fiber market. All these projects are chosen specifically to help the Foundation achieve its mission through the following major goals:

The Cotton Foundation's overall mission is strengthening U.S. cotton's position in the highly competitive fiber market.

- support present Foundation leadership and member education programs;
- provide educational programs that improve safety, productivity and environmental stewardship of the industry work force;
- identify short-term and longer-term issues facing the cotton industry and then develop and implement projects to address issues or needs;
- develop and provide funding for programs to help influence industry and government research;
- identify long-term, industrywide strategic issues that will affect the cotton industry; and identify and assess in a timely manner the impact of proposed regulations.

News

National Cotton Council periodically disseminates information such as news releases and articles in its newsletter, *Cotton's Week*, regarding Cotton Foundation projects, including progress reports and announcements of new special projects.

Cotton's Week -- August 6, 2021

Foundation Trustees Approve Research Projects

The Cotton Foundation held its annual membership meeting in Newport Beach, CA, immediately followed by the Foundation Board of Trustees meeting.

During the membership meeting, Foundation trustees for the 2021-22 fiscal year were elected. Those include producers: Neal Isbell, Muscle Shoals, AL; Jon Whatley, Odem, TX; Dean Calvani, Carlsbad, NM; Sam Whitaker, Monticello, AR; and Philip Edwards, III, Smithfield, VA; along with allied industry members: Douglas Rushing, Bayer; Macie O'Shaughnessy, Syngenta; Matt Rekeweg, Corteva AgriSciences; Travis Becton, John Deere; Andrew Conner, BASF; Eric Castner, FMC; Kelly Fenner, Seal Transportation; Jeffrey Smith, Valent; and Russell Sutton, Lummus.

Also elected as trustees were Louisiana crop consultants Rogers Leonard, Baton Rouge; and Hank Jones, Pioneer; and Georgia crop consultants Wes Briggs, Bainbridge; and Jack Royal, Leary.

Foundation trustees elected officers for 2021-22. Neal Isbell was elected Foundation chairman and Jon Whatley, president. Other elected officers are: Gary Adams, executive vice president; Don Parker, executive director/secretary; Doug Rushing, treasurer; and Drew Davis, assistant treasurer. John Willis, outgoing Foundation chairman, was recognized for his five years of service and leadership.

Foundation trustees also approved funding for 11 general research projects totaling \$247,000 for 2021-22. Included are studies related to a new invasive insect (cotton seed bug), sustainability, regulatory issue information gathering, plant protection products re-registration, risk data updating and education.

Officers and Trustees 2020-2021

Mr. John H. Willis
Brownsville, TN
Chairman

Mr. Neal Isbell
Muscle Shoals, AL
President

Dr. Gary Adams
Cordova, TN
Executive Vice President

Dr. Bill Norman
Cordova, TN
Executive Director/Secretary

Dr. Doug Rushing
Saint Louis, MO
Treasurer

Mr. Drew Davis
Cordova, TN
Assistant Treasurer

Mr. Dean Calvani
Carlsbad, NM
Producer Trustee

Mr. Jon R. Whatley
Odem, TX
Producer Trustee

Mr. Sam Whitaker
Monticello, AR
Producer Trustee

Mr. Travis Becton
Ankeny, IA

Mr. Matt Rekeweg
Indianapolis, IN
Allied Industry Trustee

Dr. Doug Rushing
St. Louis, MO
Allied Industry Trustee

Mr. Jeffrey Smith
Fayetteville, GA
Allied Industry Trustee

Ms. Mary Kay Thatcher
Washington, DC
Allied Industry Trustee

Project Support

The U.S. cotton industry is enjoying a healthy return on investment from Foundation member support of general projects and special projects. National Cotton Council staff estimates that accounting for cash and in-kind services, the Foundation's general projects, for example, enjoy a return of about \$3 for every dollar devoted to these projects. By supporting these projects, the Foundation is truly fostering innovative: 1) research to find solutions to cotton problems; 2) technology to implement those solutions; 3) education to speed new research application and 4) communication to spread information throughout cotton's production and marketing chain.

General Projects 2020-2021

- Journal of Cotton Science
- Cotton Pest Loss Survey
- Enhancing Cotton Industry Education and Information through the National Cotton Council Web Site
- EPA Residual Risk and Technology Reviews (RTR) for the "Vegetable Oil Production" Source Category (MACT Standards Review)
- Information and Research on Potential Consumer, Environmental and Workplace Risks
- Sustainability of U.S. Cotton
- Verification of Risk Assessment Data and Evaluation
- Virology of the Cotton Leaf Roll Dwarf Virus
- Fov4: Threat to Upland Cotton Production
- Application of the Field Print Calculator for Cotton Production in the Texas High Plains
- Book Documenting the History of the Pink Bollworm Eradication Program

Fusarium wilt caused by Fov4 has potential to be devastating to U.S. cotton production.

Research Screening Committee*

Dr. Jeffrey S. Mink, Chairman, Syngenta Crop Protection, Inc., Memphis, TN

Mr. T. Keith Corzine, Ex Officio, Farmers Coop Gin of Stamford, Stamford, TX

Mr. Joel C. Faircloth, Dow Agrosciences, Collierville, TN

Mr. Paul Kennedy, Helena Chemical Company, Memphis, TN

Dr. Bill Norman, National Cotton Council, Cordova, TN

Mr. Paul Ollerton, Olam Cotton Yellow Gin, Casa Grande, AZ

Dr. Douglas W. Rushing, Bayer CropScience, Saint Louis, MO

Mr. Joe W. Thomas, Lummus Corporation, Pooler, GA

Mr. Paul D. Vaculin, AMVAC, Collierville, TN

Advisors

Dr. Kater Hake, Cotton Incorporated, Cary, NC

*Each year, the Foundation's Research Screening Committee reviews and prioritizes general project proposals before submitting their recommended project list for approval by the Foundation's trustees at the Foundation annual meeting.

Special Projects 2020-2021

Emerging Leaders Program

Bayer

Cotton Ginning Symposium (Textile Manufacturing Symposium)

Bayer

Producer Information Exchange (P.I.E.)

Multi-Commodity Education Program (MCEP)

Deere & Company

Cotton Germplasm Collection Support

Bayer

Cotton Nematode Research and Education Program

Bayer

Cotton Seedling Disease Research and Education Program

Bayer

The National Cotton Council provides Emerging Leader Program participants with communications training and updates on NCC activities in the legislative and regulatory arenas.

Weed Resistance Learning Module

Dow AgroSciences; Bayer; Syngenta

Advancing Cotton Education (ACE)

Bayer

Educational Outreach

Bayer; Syngenta; Dow AgroSciences; Valent

Cotton LEADS™

Cotton Australia, Cotton Incorporated, National Cotton Council and Cotton Council International

Ongoing Special Project Contributions

Several Foundation members support the NCC-coordinated **Beltwide Cotton Conferences** -- helping the NCC produce a quality conference with modest attendee registration fees.

The Foundation continues to distribute volumes in its **Cotton Reference Book Series**, which can be ordered online. The series includes *Weeds of Cotton*, *Cotton Harvest Management*, *Stress Physiology in Cotton*, *Flowering and Fruiting in Cotton*, *Linking Physiology to Management* and *Boll Weevil Eradication in the United States Through 1999*. The Cotton Foundation series reference books can be purchased from the Foundation at: <https://www.cotton.org/foundation/cf-ref-books.cfm>

Some other efforts helpful to cotton's overall research and education effort include the periodic development and distribution of various NCC-produced educational videotapes. The Gin Lab Symposium, sponsored by Delta and Pine Land, Syngenta, and Bayer, aids in familiarizing state land grants extension specialists with post-harvest processes of ginning and textiles to improve appreciation of end user needs.

Awards and Endowments 2020-2021

High Cotton Awards

Farm Press Publications

Robert and Lois Coker Trustees Chair in Molecular Genetics

Endowment: \$1,000,000

**The C. Everette Salyer
Fellowship in Cotton
Research** is administered by Texas A&M University's Entomology Department which provides more details and a list of previous winners on its [website](#).
Endowment: \$300,000

2020 High Cotton Winners, from left, are cotton producers: Greg Wuertz, Coolidge, Ariz.; Larry Ford, Greenwood, Fla.; Dan Smith, Lockney, Texas; and Matt/Kelly Griggs, Humboldt, Tennessee

Cottonseed Oil Clinic
Endowment: \$60,000

Cottonseed Oil Clinic
Endowment: \$60,000

Cotton Foundation Reference Books Series

The Cotton Foundation Reference Books Series is aimed at providing a comprehensive source of information on topics fundamental to efficient U.S. cotton production.

U.S. addresses:

- For fastest service, order on-line using the below form. You can also download a [PDF version of the form](#) (10k) to fill out off-line.
- Prices include shipping and handling.
- An invoice will be enclosed with shipment.

Foreign addresses:

- Download the [PDF version of the order form](#) (10k).
- Must pay in advance with funds drawn on a U.S. bank or by money order.
- After you send us your order, we'll contact you regarding total charges for your approval prior to shipping.

LINKING PHYSIOLOGY TO MANAGEMENT is our latest addition to the Reference Book Series. This new book is available in an electronic format. Click the link in the table below to navigate to the table of contents.

We are in the process of converting all past Reference Books to digital format. Click on links for titles in the table below to download all or parts of books or to view online.

Volume	Title	Price per Copy	Quantity	Total
1	COTTON PHYSIOLOGY (available online only)	n/a		
2	WEEDS OF COTTON: Characterization and Control	\$25	<input type="text"/>	<input type="text"/>
3	COTTON INSECTS AND MITES: Characterization and Management (available online only)	n/a		
4	VEGETABLE OILS AND AGRICHEMICALS (not yet available online)			
5	COTTON HARVEST MANAGEMENT: Use and Influence of Harvest Aids	\$30	<input type="text"/>	<input type="text"/>
7	STRESS PHYSIOLOGY IN COTTON (Available in print, online and CDs)	\$25	<input type="text"/>	<input type="text"/>

Members

The Cotton Foundation's contributions to cotton research and education are possible because of its faithful members. These agribusiness allies' voluntary dues are enabling the Foundation to support 11 general research projects related to pest management, sustainability, regulatory issue information gathering, plant protection products re-registration, risk data updating and education efforts.

[ADAMA](http://www.ADAMA.com) is one of the world's leading crop protection companies. We strive to Create Simplicity in Agriculture – offering farmers effective products and services that simplify their lives and help them grow. With one of the most comprehensive and diversified portfolios of differentiated, quality products, our 5,000-strong team reaches farmers in more than 100 countries, providing them with solutions to control weeds, insects and disease, and improve their yields. For more information, visit us at www.ADAMA.com.

[Americot, Inc.](http://www.americot.com), headquartered in Lubbock, Texas, provides Southwest, Midsouth and Southeast cotton growers with quality planting seed of varieties that offer high yield potential and excellent fiber quality with the technologies that growers want and need. For more information on Americot brand and NexGen brand cotton products, call 888.678.7333 or go to www.americot.com.

[AMVAC Chemical Corporation](http://www.amvac-chemical.com) manufactures and markets the following crop protection products for cotton growers in the United States: Insecticides: BIDRIN®, ORTHENE® and DIBROM® 8. Soil Fumigants: VAPAM® and K-PAM ®. Defoliant: FOLEX®. AMVAC operates manufacturing facilities in Los Angeles, CA and Axis, AL. For more information, visit www.amvac-chemical.com.

[Armor Seed](http://www.armorseed.com) is, and always has been, a farmer-focused company with the best interests of its growers guiding its direction. Today, we're one of the largest regional seed providers in the country with a strong market presence in the Mid-South and growing recognition nationwide. The Armor Seed team is recognized as experienced, informed and knowledgeable. We put great effort into developing an innovative product line with the latest technologies tested for top performance and specifically suited to our growers' fields. Regardless of the market challenges the

industry may face, we know for a fact—when farmers succeed, we succeed.

From high-quality seed with established brands like FiberMax® and Stoneville®, to proven crop protection and seed treatment products, [BASF](#) works closely with cotton growers to protect their crops and maximize yield, acre after acre, year after year. We deliver a complete grower experience—field-tested solutions, agronomic insights, and customized recommendations to help growers overcome every challenge and achieve their fields' full potential. Learn more at agriculture.basf.com.

Deltapine® Strong Cotton

Deltapine® cotton has developed and delivered over a century of strength with varieties that offer unmatched potential with outstanding yields and fiber quality in every maturity group, every season. We believe investing in the future of cotton is the best way to secure it, and breeding the strongest cotton varieties promotes your strongest yields.

[Case IH \(www.caseih.com\)](http://www.caseih.com) provides a full line of agricultural equipment solutions for cotton production, flexible financial services and parts and service support through a dedicated network of professional dealers and distributors. Productivity enhancing products include tractors ranging from 18 to 535 horsepower; Module Express and Cotton Express pickers; tillage tools; planting and seeding systems; sprayers and applicators; and AFS precision farming systems.

C.H. ROBINSON

At [C.H. Robinson](#), we believe in accelerating global trade to seamlessly deliver the products and goods that drive the world's economy. Using the strengths of our knowledgeable people, proven processes and global technology, we help our customers work smarter, not harder. As one of the world's largest third-party logistics providers (3PL), we provide a broad portfolio of logistics services, fresh produce sourcing and Managed Services for more than 113,000 customers and 107,000 contract carriers and suppliers to meet their supply chain goals through our integrated network of 280 offices and more than 14,000 employees. In addition, the company, our Foundation and our employees contribute millions of dollars annually to a variety of organizations. Headquartered in Eden Prairie, Minnesota, C.H.

Robinson (CHRW) has been publicly traded on the NASDAQ since 1997. For more information, visit <http://www.chrobinson.com> or view our [company video](#).

Cotton Farming is the most requested publication by American cotton producers for cotton information. Co-owned by Lia Guthrie and Mississippi Delta cotton farmer, Mike Lamensdorf, Cotton Farming focuses on delivering profitable production and management strategies to improve our readers' bottom line. We feel industry involvement is crucial to our audience's survival which hits very close to home for us. Publishing Cotton Farming each month is not just what we do. It is who we are. We co-sponsor the Texas Cotton Ginners Association Annual Meeting and Trade Show each year as well as the long-standing, highly respected Cotton Consultant of the Year award. We believe that global competition is paramount to our farmers and have co-sponsored several cotton quality seminars to improve awareness of our readers about marketing in the global marketplace.

COTTON GROWER and **COTTON INTERNATIONAL** are the flagship publications of Meister Media Worldwide's Cotton Media Group, the world's largest provider of cotton information. Other Meister Media Worldwide products, services and events for the cotton community include COTTON GROWER PLUS targeted reports; CI WORLD REPORT, serving the global cotton chain "from boll to bobbin"; the COTTON GROWER / National Cotton Council "Millennium Grant"; the annual "Cotton Achievement Award"; the COTTON GROWER / NYBOT "Cotton Marketer of the Year Award"; the Cotton International Hall of Fame; and the yearly COTTON GROWER "Beltwide Luncheon."

Dow AgroSciences LLC, based in Indianapolis, Indiana, USA, is a top-tier agricultural company that combines the power of science and technology with the "Human Element" to constantly improve what is essential to human progress. Dow AgroSciences provides innovative technologies for crop protection, pest and vegetation management, seeds, traits, and agricultural biotechnology to serve the world's growing population. Global sales for Dow AgroSciences, a wholly owned subsidiary of The Dow Chemical Company, are \$3.8 billion. Learn more at www.dowagro.com.

EnviroLogix Inc., with its customer-driven approach, develops and provides rapid test kits to detect genetic modifications (GM) and mycotoxins in seeds, plants & grain. QuickStix™ Strips are used to screen for individual GMs, and QuickStix Combo Strips detect multiple events on one test device. The ELISA plate kit format is available when quantitative determinations are needed. QuickTox™ Kits for Aflatoxin (GIPSA-approved) are used for screening and quality assurance of grain or bulk seed, with results in as little as two to three minutes.

Farm Credit supports rural communities and agriculture with reliable, consistent credit and financial services, today and tomorrow. Farm Credit has been fulfilling this mission for nearly a century by providing farmers with the capital they need to make their businesses successful and by financing vital infrastructure and communication services. For more information, please visit www.farmcredit.com.

Farm Press publications is the source that Sunbelt producers turn to for the timeliest, most thorough coverage of crops and issues important to them. Since Delta Farm Press started 75 years ago, the company's publications have become "the bible" in the areas they serve. The Farm Presses include Southeast Farm Press, Delta Farm Press, Southwest Farm Press, Western Farm Press, Delta Agricultural Digest, Delta Farm Press Daily, Southeast Farm Press Daily, Southwest Farm Press Daily and Western Farm Press Daily. Delta Farm Press is co-sponsor of the Mid-South Farm & Gin Show, the South's largest indoor farm show, and produces the official program. Farm Press also produces or co-sponsors several other shows and conferences around the Sunbelt, as well as special publishing projects, electronic media and list rentals.

A diversified portfolio of cotton herbicides, harvest aids, insecticides and fungicides from FMC offers unmatched performance and field support for the best possible results. Include FMC products in your crop protection and defoliation programs to maximize results that you can take to the bank. Cotton protection products include Aim® EC herbicide, Anthem® Flex herbicide, Command® 3ME microencapsulated herbicide, Crusher® herbicide, Shark® EW herbicide, Athena® insecticide/miticide, Brigade® 2EC insecticide/miticide, Brigadier® insecticide, Carbine® 50WG insecticide, Fyfanon® 57EC insecticide, Coragen® insect control, Dimethoate® 400 EC insecticide, Exirel® insect control, Fyfanon® ULV-AG insecticide,

Hero® insecticide, Hero® EW insecticide, Mustang® insecticide, Mustang® Maxx insecticide, Prevathon® insect control, Steward® EC insecticide, Topguard® fungicide, Topguard® EQ fungicide, Topguard® Terra fungicide, and Display® cotton harvest aid. For more information, please visit our website, www.fmccrop.com

Georgia Association of Professional Agricultural Consultants is a non-profit member organization comprised of 34 private full-time agricultural consultants serving Georgia farmers. Founded in 1990, GAPAC members provide a full line of services on a variety of crops. For more information visit our web site, www.georgiacropconsultants.org.

Gowan Company, a family-owned registrant and marketer of crop protection products based in Yuma, AZ started as a crop consultancy in 1963. Our foundation was formed by walking the rows and orchards in lockstep with our customers. Gowan's success is attributed to our focus on niche products and minor crops, accompanied by technical know-how and customer responsiveness. Gowan Company differs from other chemical companies because we started in the field, walking with and listening to our customers. Our roots are firmly planted in the fruit, nut, vegetable and specialty crop sector but we seek niches in all crops when there is a need to provide and protect unique crop protection solutions. We position our products on best agronomic fit and technical merit. Gowan Company is known in the ag chemical industry as a political advocate for pesticides. We dedicate our resources to keep the pulse of agriculture in the forefront of our daily business. Gowan serves on committees that affect pesticide legislation and maintains key contacts in this arena. We listen to your needs to find new uses for our products, and make a commitment to keeping those products in the marketplace. Gowan Company recognizes the need to rescue mature products that larger companies no longer find value in retaining. We acquire and defend valuable crop protection products that are critical to key markets. We are responsive and readily available to our customers, and most importantly, we maintain an unwavering commitment to serving growers.

[Helena Chemical Company](#) is the leading distributor of crop inputs across the Cotton Belt and the country. We offer crop protectants, fertilizer, seed, seed treatments, adjuvants, bioscience products, nutritional products, value-added products, precision ag services and software...and much more. With its theme of People...Products...Knowledge®, Helena is the most trusted, innovative and respected distributor in the Cotton Belt.

[H.W.J.Designs](#)

[H.W.J. Designs](#) Machinery/Equipment Ultraviolet disinfection equipment, Water conditioners, Water softening accessories, Ultrafiltration equipment, Packaged water treatment systems, Collection tanks.

[ICE Futures U.S.](#) operates global commodity and financial products marketplaces, including the world's leading electronic energy markets and soft commodity exchange. ICE's diverse futures and over-the-counter (OTC) markets offer access to contracts based on crude oil and refined products, natural gas, power and emissions, as well as agricultural commodities including cocoa, coffee, cotton, ethanol, orange juice, wood pulp and sugar, in addition to foreign currency and equity index futures and options.

[Indigo Ag Inc](#), a Boston-based company, focuses on the microbes that have evolved in conjunction with plants over millions of years to optimize health and maximize productivity. Utilizing these beneficial microbes, Indigo can work towards its goal of helping farmers to sustainably feed the planet. Inspired by insights from the human microbiome, Indigo began with the hypothesis that microbes living inside a plant (endophytes) are vital to its health. With sophisticated sequencing techniques, Indigo has assembled a world-class database of genomic information from these microbes, resulting in products that complement a plant's natural processes to improve crop health while increasing yield.

[John Deere](#), one of the world's oldest and most respected enterprises, creates smart and innovative solutions, in the form of advanced machines, services and concepts, for customers on the farmsite, worksite and homesite worldwide.

Lummus Corporation is a worldwide leader in the manufacturing and marketing of a complete line of cotton ginning machinery and replacement parts, including gin stands, feeders, lint cleaners, precleaning and baling equipment.

Netafim USA, the world leader in micro irrigation technology for more than 30 years, offers micro irrigation systems for cotton and other crops. Netafim USA systems include dripperline, valves, filters and air relief, and deliver precise amounts of water and nutrients to every plant in a variety of terrains and environments.

Rain and Hail Insurance Service, Inc. As the leading crop insurance provider in the U.S., Rain and Hail has protected rural America for the past 100 years. Our unique perspective on risk management in rural America allows us to tailor crop insurance plans with localized impact. We are constantly enhancing our industry-leading technology backed by our high-level service to give agents and growers the tools they need to be successful.

Samuel Strapping Systems is a worldwide leader in the manufacture, sales and servicing of completely Automatic Bale Tying Systems for cotton baling using textile industry preferred polyester strap. Our undefined strapping is specifically engineered for use in these system applications. Samuel's systems are adaptable to any new or existing baling press. For more information, call us at 1-800-359-9222, email us at smyrnaoffice@samuelstrapping.com or click on our logo.

Since 1998, **Seal Transportation** has been applying our practical creativity to solutions that truly work for our customers. Our agricultural customers benefit from our experience developing smooth, sound solutions through each season and harvest. Our consultative approach goes beyond transactional activities, focusing on client based solutions that reduce cost and bring value to your logistics needs. Our philosophy is to provide exceptional service and to focus on building lasting relationships with both customers and carriers. As relationships are our priority, customers can rely on us to always do the right thing with each shipment. "Seal Transportation is as solid as a rock, ethical and committed to doing the right thing. We believe in the

company because at every point, the core foundation at Seal is giving every customer a great experience.” — Gene Schiesser, CEO

Signode Corporation is the Global leader in manufacturing both fully automatic strapping equipment and polyester strap for cotton baling. Signode's High Strength Tenax polyester strap and revolutionary Automatic strapping system provides a reliable, cost effective and safe method for tying out bales on any baling press. All Signode products are designed, manufactured and serviced directly by Signode personnel. For more information call us at 1-888-342-3770 or email at ips@signode-ips.com. Visit our web site by clicking on the Signode logo above.

Southern Cotton Ginners Foundation is a non-profit organization composed primarily of Southern Cotton Ginners Association members in Mississippi, Arkansas, Louisiana, Tennessee and Missouri, and all other individuals interested in funding scientific, educational and charitable endeavors for the advancement and betterment of the cotton ginning industry.

Syngenta is one of the world's leading agriculture companies. Our ambition is to help safely feed the world while taking care of the planet. We aim to improve the sustainability, quality and safety of agriculture with world class science and innovative crop solutions. Our technologies enable millions of farmers around the world to make better use of limited agricultural resources. With 28,000 people in more than 90 countries we are working to transform how crops are grown. Through partnerships, collaboration and The Good Growth Plan we are committed to improving farm productivity, rescuing land from degradation, enhancing biodiversity and revitalizing rural communities. To learn more visit www.syngenta.com and www.goodgrowthplan.com. Follow us on Twitter at [www.twitter.com/Syngenta](https://twitter.com/Syngenta) and [www.twitter.com/SyngentaUS](https://twitter.com/SyngentaUS).

Tama USA Inc. is a world leader in the development, manufacture and sale of crop packaging products and solutions; combining farming experience, with cutting-edge agricultural technology, for growers around the globe.

Valent USA LLC is dedicated to providing sustainable solutions to cotton farmers through innovative products developed to protect and enhance yield. For more information, please visit www.valent.com or www.valentsustainablesolutions.com.

Willmar Fabrication, LLC is a leader in spray drift reduction technology. Along with the original Redball™ Spray Monitor, Willmar Fab designs and manufactures broadcast spray hoods to minimize concerns about drift and row crop spray-hoods to help control resistant weeds. Willmar Fab has a strong focus on customer service and support, and is committed to develop innovative products that solve real-world problems. Learn more at www.WillmarFab.com

WinField United is the seed, crop protection products, agricultural services and agronomic insights business of Land O'Lakes, Inc. As an industry leader, the business focuses on meeting the needs of nearly 1,300 locally owned and operated cooperative and independent agricultural retailers and its grower-customers across the United States. Through data-backed, insight-driven agronomics, operational excellence and sustainable solutions delivered under the WinField United brand, the business helps retailers successfully meet farmers' needs.
