

May 24, 2016

Dear Members of the United States House of Representatives:

We are writing on behalf of the American Alliance for Innovation (AAI) to urge you to vote for the Frank R. Lautenberg Chemical Safety for the 21<sup>st</sup> Century Act (FRL-21), a comprehensive bill to reform the 1976 Toxic Substances Control Act (TSCA). FRL-21 is an historic opportunity for Congress to update a major environmental law, an achievement not made since the *Clean Air Act Amendments* of 1990. The legislation would provide the nation's primary chemical regulatory law with a much-needed update that is good for the economy, consumer safety and health, and the environment.

AAI is an alliance of trade associations representing a broad spectrum of the economy, businesses large and small. AAI has an incredible economic footprint, representing industry sectors all along the chemistry value chain, including aerospace, agriculture, apparel, automotive, building and construction materials, chemical and raw material production, consumer and industrial goods, distribution, electronics, energy, equipment manufacturers, food and grocery, footwear, healthcare products and medical technology, information technology, mining and metals, paper products, plastics, retail, storage, and travel goods. Updating TSCA so the law ensures the safe use of chemicals, encourages the development of new products, and protects American jobs is a top priority for our associations.

FRL-21 creates a transparent, evidence-based, cohesive national program that will improve the regulation of chemicals used in commerce, provide more certainty and confidence in the regulatory framework, and have a significant impact on each of our industries, the products we make/or the services we provide, and the millions of workers we represent.

We urge you to vote yes in support of FRL-21 when it comes to the floor, which is anticipated to happen today, Tuesday, May 24th. We are committed to doing our part to help successfully implement a new TSCA ready to meet the demands of the 21<sup>st</sup> Century.

Sincerely,
