

A Letter from U.S. Food and Agriculture Associations and Companies

May 6, 2019

Dear Leader McConnell, Leader Schumer, Speaker Pelosi and Leader McCarthy:

The undersigned food and agriculture associations and companies strongly support ratification of the U.S.-Mexico-Canada Agreement (USMCA). This new agreement includes important improvements that will enable food and agriculture to trade more fairly, and to expand exports of American agricultural products to our North American partners.

The food and agriculture industry welcomed the opportunity to modernize the North American Free Trade Agreement (NAFTA). Since NAFTA was implemented, U.S. agricultural exports to Canada and Mexico quadrupled from \$8.9 billion in 1993 to \$39 billion in 2017. The International Trade Commission's new report, the *United States-Mexico-Canada Agreement: Likely Impact on the U.S. Economy and Specific Industry Sectors*, determines that the USMCA "would likely have a positive impact on all broad industry sectors within the U.S. economy" and "a positive impact on the U.S. agriculture sector." In fact, the USMCA would raise the U.S. GDP by \$68.2 billion, pumping an additional \$2.2 billion, or 1.1%, into the U.S. economy through increases in agricultural and food exports.

The ITC report confirmed our belief that the USCMA will further increase the benefit to American farmers, ranchers, and agribusinesses by improving market access and customs procedures, establishing modern, science-based sanitary and phytosanitary standards, and enhancing standards for biotechnology and strengthening safeguards for commonly used food names.

Canada and Mexico account for over \$45 billion in U.S. agriculture exports and support more than one million American jobs. In order to build upon that success, Congress must
